

Guidelines on the use of Changing Rooms and Showering Facilities

These guidelines apply to adults, and children and junior members, sharing changing facilities. Anyone under the age of 18 is a junior member.

- Adults must not change, or shower, at the same time using the same facility as children or junior members.
- Adults should try to change at separate times to children during matches, for example when children or junior members are padding up.
- If adults and children/junior members need to share a changing facility, the Club must have written consent from parents/guardians that their child(ren)/junior members can share a changing room with adults in the club, this is especially relevant where junior players are playing in Open Age cricket.
- If children/junior members play for Open Age teams, they, and their parents/guardians, must be informed of the Club's policy on changing arrangements.
- Mixed gender teams must have access to separate male and female changing rooms/areas
- Mobile phones or other portable devices that are capable of taking photographs or video must not be used in changing rooms.
- If children or junior members are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. It can be suggested instead that they may change and shower at home.
